

Exterior Coating

Description

Exterior Coating is a clear, permanent and a 1 compound anti-graffiti coating. The coating is suitable for painted metal, aluminum, plastic etc.. **Exterior Coating** is a high quality coating and has been approved by the Deutsche Bahn AG. The anti graffiti coating offers a long lasting protection of 8-10 years (tapering). Removing ink, graffiti, posters etc. is very easy. The coating has a good chemical, scratch and weather resistance.

Usage

Exterior Coating can be applied to painted surfaces such as:

- Metal
- Plastic
- Aluminium
- Etcetera.

Advantages

The advantages of **Exterior Coating** are:

- Permanent coating
- 1 compound
- UV resistant
- Protective coating with gloss
- Tested and meets the requirements of the Deutsche Bahn AG

Application Tools

Apply **Exterior Coating** with a clean microfiber cloth or a melamine sponge:

Health and Safety

- Breathing Protection: No breathing protection is required under normal use conditions with suitable ventilation. Wearing a facemask is advisable.
- Hand protection: Chemical resistant gloves should be worn.
- Skin protection: Wear protective clothing over exposed areas of skin.
- Eye protection: Chemical goggles should be worn.
- Ingestion: Ingestion may cause nausea and vomiting. Do not induce vomiting. Consult a Doctor.

KEEP OUT OF THE REACH OF CHILDREN!

Advice

Always carry out a test first to ensure the finished result is acceptable.

Air temperature between 5°C – 30°C.
Substrate temperature 5°C – 25°C

Attention:

It is very important that the surface is not damp or wet. The product is very sensitive to moisture. Film formation may occur due to humidity and low temperatures.

Coverage rate

125-150m² / liter.

Exterior Coating

Application

Preparation:

Attention: the product must not be exposed to frost. The surface must be dry, dust-free and clean.

Application:

Apply **Exterior Coating** with a clean microfiber cloth or a melamine sponge.

Apply a thin layer of approximately 5 µm.

Drying time:

Dry:	approx. 20 minutes
Dry on surface:	approx. 120 minutes
Hardened:	approx. 12 hours

Based on +/- 20 °C.

Storage

Recommended storage is in a cool, dry place with temperature 10°C – 15°C.

Store the product in a frost-free place.

Shelf life: 12 months in original sealed container.
